Hello Paul,

As of now we have no plans for water sampling, if the situation changes we will let you know immediately.

Roberto/Pratistha/Eric,

Good morning! Certainly redefining what a long weekend means.

When should we expect more samples? It would be nice to have an update each day so we can prep the equipment and staff accordingly. We are running a small crew so it would be nice to plan out to bring in more staff and extra supplies if you guys are going to ramp up or just basic scheduling if things will just be a slow and steady pace.

Many thanks,  
Kuda
